

RISK MANAGEMENT

RISK MANAGEMENT

- The concept of risk is not new to CA practitioners. It has been around as long as the profession has provided services in a commercial setting. However, the issue of risk and risk management has increased in importance as the number and size of legal claims has increased over the years.
- To enhance our system of quality control, Nangia & Co separates the responsibility for risk management and oversight of quality control monitoring from the responsibility for managing the firm's business and professional practice activities.

RISK MANAGEMENT

Integrity

- As a professional it is advised to be straight forward and honest in all professional dealings with all relations

Due Care

- It is advised that all personnel of Nangia & Co take due care of all assignments with professional competence

Professional behavior

- A distinguishing mark of the accountancy profession is its acceptance of the responsibility to act in the public

Confidentiality

- Keep all client and firm information confidential. Do not disclose any client information outside the firm without authority

Objectivity

- : Be objective. Do not compromise your professional or business judgment due to personal interest, bias, pressure or the interests of others
